

# Internet Policy

## Rationale

In a rapidly changing technological world, Internet use is a part of the statutory curriculum and a necessary tool for staff and pupils. Pupils and staff have access to the most up to date information, which is beneficial for both teaching and learning. A recent study shows that 85% of pupils between the years of 1 to 6, at Havercroft Academy have access to home internet. Pupils are encouraged to use educational sites out of school.

## Purposes

To enable children to

- access world-wide educational resources including games, museums and up to date information
- access our school Virtual Learning Environment (VLE) and use it effectively
- have fun whilst learning
- learn how to critically evaluate information and realise that not all print is true
- use email as a modern way of communication
- learn about e-Safety Broad Guidelines:
- The school internet access has excellent filtering in place via Yorkshire and Humberside Grid for Learning.
- Parents will be asked to sign and return a consent form to allow their child to use the Internet in school.
- Pupils will be taught, through clear guidelines, what Internet use is acceptable and what is not. Pupils and parents will sign an Acceptable Use Agreement for using the Internet.
- Pupils will not be permitted to use the Internet without a teacher present.
- Pupils will be taught the skills to keep safe when using the Internet.

- If staff or pupils discover unsuitable sites, the URL (address) and content must be reported to the Internet Service Provider via the ICT Leader and logged in our own record book.
- Pupils must not reveal personal details of themselves or others in e-communication, such as address or telephone number, or arrange to meet anyone.
- The point of contact on the Web site is the school address, school e-mail and telephone number. Staff or pupils' home information will not be published.
- Pupils' full names will not be used anywhere on the Web site, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school Web site or in the local paper.
- Rules for Internet access will be posted in the ICT suite. Conclusion Through the use of the Internet we have the world at our fingertips but safe and monitored use is of paramount importance.
