

The Power of Reading

power of reading

All pupils must be encouraged to read widely across both fiction and non-fiction to develop their knowledge of themselves and the world in which they live, to establish an appreciation and love of reading, and to gain knowledge across the curriculum. Reading also feeds pupils' imagination and opens up a treasure-house of wonder and joy for curious young minds.

National Curriculum 2014

The Power of Reading is a school development project which engages teachers and children in the literacy curriculum through using high quality books and proven teaching approaches. The project offers multi-layered professional development drawing on Centre for Literacy in Primary Education's (CLPE's) highly regarded classroom-based research and experience of working with teachers. The Power of Reading project combines the use of outstanding books for teachers and children with an approach to teaching the English curriculum that is creative, engaging and develops a love of literacy.

The national Power of Reading project has been successful for over a decade and year on year there are more schools taking part. The Power of Reading is running in London and Stacey Kirk is leading on the implementation of the programme at Montagu Academy.
